

HEATING SOLUTIONS FOR RESTAURANTS, WINERIES, AND MICROBREWERIES

1-855-309-1009

In order to help businesses make up for the losses incurred by COVID-19, HVAC Rentals has designed a plan to help restaurants, wineries, and microbreweries prolong their season. Social distancing is limiting the space businesses profit from. Therefore maximizing the area covered is key to helping these businesses keep their doors open.

Several restaurants are installing temporary tents and we have the equipment to heat them creating a wonderful client experience. From small infrared units to large tent heaters, we have the perfect heating solutions for any type of setup.

Make the best of this pandemic and extend your outdoors' timeline to maximize profitability. Call and speak to one of our representatives to plan out your setup.
